Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

This house is located near the north side of Route 68, northwest of Williamsport. The house is built close to the road, and faces south. A tall hedge obscures much of the south facade. The building is composed of a main block, 2½ stories high, with a lower two-story ell to the rear. The main block is three bays wide by two deep, and is sheathed with light green asbestos shingle. The construction material of the main block is not clear; the ell, however, is of brick painted light green, and its second floor windows are square and small in size. A one-story porch is located on the principal facade.

Prepare both a summary paragraph of significance and a general statement of history and support.

This house is significant architecturally as an example of vernacular building of the mid-19th century. The main block of the house represents a typical form, while the brick ell, smaller in size and with different proportions and window sizes, may possibly be of an earlier date.

The house is shown on the 1877 Lake, Griffing, and Stevenson atlas of Washington County as that of a Mrs. Hoover; it is not shown on the 1859 Taggart map of the county.
